

*Luxury Kitchen
Renovation Is What
We Do Every Day*

**RENOVA
HOUSE**

WHY CHOOSE RENOVAHOUSE

We're committed to offering our customers with high-quality kitchen renovation. Our objective is to deliver the highest level of service to our customers and to help them every step of the way with expert guidance so that they can make the best decisions for their house. We'll be with you every step of the way to ensure you have the greatest possible experience. We think we're the best company for the job, but here are a few more reasons to choose Renovahouse for your kitchen renovation.

KNOWLEDGE AND EXPERIENCE

We have a true experience of 20 years in the industry. This experience has provided us with several trade relationships, allowing us to provide the best quality of materials to customers at the most competitive prices. When you choose Renovahouse, you can rest assured that you've chosen a team of experts who are both skilled and experienced.

QUALITY CONTROLLED

All of the work done by our team of skilled tradesmen is of the highest standard. Furthermore, each project is quality-controlled by our project managers, ensuring that work is completed to a high level at every stage. We are dedicated to giving the finest possible service to our clients, and we take pride in producing high-quality work with the highest-quality materials.

QUALITY WORKMANSHIP

Quality and top-notch workmanship are clearly our top priorities, as seen by our previous work and great customer relationships. We don't believe in cutting corners, so we make sure to use best practices and provide the greatest solutions for your next remodeling job.

PROFESSIONALISM

Each task is handled with the utmost care and expertise by our team of fully qualified tradespeople. You can rest confident that your home will not be left in disarray once the renovation job is over, and we'll keep in touch with you during the process to keep you informed.

KEEPING YOUR BUDGET IN MIND

It is possible for a project to go over budget, as long as you, the client, are notified of any price hikes or adjustments. We aim to be on budget, on schedule, and on target with our agreed-upon budgets and timetables. Every customer we work with is concerned about their budget to some extent. Regardless of the project's monetary amount or scale, our clients want to know they're receiving good value for their money. That's why we go above and beyond to inform our clients on the expenses associated with their project, why they exist, and how they may make changes that will affect the bottom line. Remember, though, that you get what you pay for when it comes to remodelling contractors, and while we strive to provide exceptional value for money on every job, we also think your house is an investment. You are entitled to high-quality, long-lasting results that will provide you with a return on your investment for many years to come.

TIMING

Renovations and remodelling projects, in particular, often seem to take longer than expected. We've been in the industry long enough to know that being reasonable and upfront about your project timetable is preferable to over-promising and under-delivering.

When we work on your project with you, we'll provide you a clear timeline well before we get on site, and we'll keep you updated as we go. Time is money, but in our line of work, time is also your comfort, which is much more precious.

FUNCTIONAL

We value design and enjoy creating beautiful spaces, but ultimately, houses are meant to be lived in and livability necessitates functionality.

We design and build bathrooms, kitchens, restorations, and more with the room's appearance as well as its intended function in mind.

In your house, function should be something you never notice. It should be smooth and well-thought-out to the point that you don't even realise it was a part of the design process. That's precisely what we want to establish in your house, so you've come to the right place if you want a home that just works.

EFFICIENT

We understand that time is money, which is why we work effectively at Renovahouse and strive to complete each job as quickly as possible (whilst maintaining our high standard of work). We understand how annoying it may be to be unable to access your house, so our team takes every attempt to accomplish tasks as quickly as possible and as efficiently as possible.

SATISFACTION GUARANTEED

We're all aware that problems arise, and they do in our projects from time to time. We, on the other hand, never leave a problem unresolved and always ensure that the job is delivered on time. Our entire team is dedicated to ensuring that any problems (if any) are addressed with quickly and that you are kept informed.

We have never had a customer who was dissatisfied with the final product, and we promise you won't be the first. Because - You don't pay the final bill unless you're completely happy. That is our guarantee.

CUSTOMER FOCUS

The first and most important thing you should know about Renovahouse is that we place a high value on customer satisfaction and are driven by your needs.

From the first meeting to discuss your project, through the idea and design phase, and all the way to final handover, your style, desires, and vision will guide the project.

SYDNEY LICENSED REMODELING COMPANY

We're licensed and insured, and we're looking forward to assisting you with your kitchen renovation. We are a Design/Supply/Build firm, which means we are here to help you through the entire process.

OUR QUALITY GUARANTEE

At the Renovahouse, we don't take shortcuts when it comes to quality. We guarantee that all materials provided will be of the best quality, and that all work and labor will be completed in a professional manner.

WHY USE A KITCHEN DESIGNER

One of the most complicated rooms in the house to design is the kitchen. Utility lines, appliances, doors, windows, and walkways abound in kitchens. It's more than just about producing a beautiful area when it comes to kitchen remodeling; it's also about making a more practical one. If you're thinking about renovating your kitchen, you know there's a lot to think about. Using a professional kitchen designer reduces the complexity of your remodel, whether you have a tiny kitchen space or want to create a larger focus for your house. This is why you want the services of a kitchen designer.

The following are the top six reasons to hire a professional kitchen designer.

IT'S ALL ABOUT THE DETAIL

Working with a kitchen designer generally entails defining your kitchen down to the smallest of elements. Measurements will be collected, and your strategy will be tailored to your individual needs. The best part is that you'll get elevations or, in our case, a 3D design to let you see your kitchen before it's built. This is a crucial stage since it takes the uncertainty out of the process by helping you to see your kitchen and understand how your design choices will function, giving you confidence in your choices.

THEY'VE SEEN IT ALL

Kitchen designers with a lot of experience have seen a lot of kitchens - small, huge, and with difficult layouts. They'll have the knowledge, skills, and supplier network to reimagine your space in ways you might not be able to, as well as to address any layout, service, or spatial issues.

THERE ARE NO SECOND CHANCES

A kitchen remodel is a significant endeavour. A new kitchen sometimes includes a variety of additional upgrades, such as flooring, wall removals, and services. You want to make sure you get it right when installing a new kitchen since it is one of the most significant expenditures you will make in your house. If you aren't pleased with the results of your new kitchen, you won't be able to tear it out and start over!

Using the expertise and resources of a professional kitchen designer can ensure that you don't have any regrets about your renovation. Your designer will be aware of all pertinent data (including measurements) and will be able to collaborate with you on your design brief to guarantee that your kitchen is precisely as you like.

GUIDED STYLE CHOICES

There are several factors to consider when renovating a kitchen, from the obvious benchtop and door designs to appliances, handles, and flooring. A professional designer will be familiar with the alternatives accessible to you and will know which items and finishes are most suited to your lifestyle, budget, and design.

INDUSTRY KNOWLEDGE

A professional kitchen designer works in the sector as a profession, which means they'll have a network of professional contacts, suppliers, and resources. Not only will they be familiar with the vast selection of goods and finishes accessible to you, but they will also have the resources to address any difficulties that may occur.

FUNCTIONALITY

Both form and function are required in a kitchen. A professional designer can advise you on kitchen work zones, as well as layouts, tactics, and items that will help you maximise storage and flow in your kitchen. We provide professional kitchen design sessions at Renovahouse, which include a colour consultation, hardware and accessories selection, 3D layouts, and customised designs to meet your house, budget, and lifestyle.

RENOVAHOUSE KITCHEN DESIGNERS

Your ideas will come to life with the help of a talented kitchen designer. They change the way you utilise your space and how you use it. As a result, a Renovahouse designer is assigned to each project till the end of the project to make sure all details delivered precisely. Our objective is to make kitchen remodels easier and better by providing design services. We think that everyone in their new area should have the finest layout possible. We also value your time, so our designers work with you to plan your project whenever and wherever you choose. Our design offices are in Sydney, but our designers collaborate with homeowners all around the world. Our designers make fantasy kitchens a reality through email, phone conversations, and screen sharing.

THE PROCESS HOW OUR DESIGNERS WORK WITH YOU

Renovahouse provides custom designed kitchens with quality, style, and experience, from idea to completion, to help you realise your dream kitchen! Many kitchen manufacturers only make standard-sized kitchens, and they will simply try to fit their standard-sized kitchens into your kitchen space.

We are real custom kitchen designers at Renovahouse! When you decide to make your kitchen ideas a reality, one of our Design Consultants will be there to help you every step of the way.

Our mission at Renovahouse is to improve the lives of our clients by providing great kitchen design concepts, product selections made by the industry's finest manufacturers and artisans, and top-notch installation services.

At its core, the procedure assists our customers in comprehending the different stages of a refurbishment and ensuring that the final product matches their original concept. Since 2000, our design approach has shown to be a very effective tool in all of our renovation projects, with successful designs and project implementation. We think that a well-crafted kitchen design process should be a cornerstone of any home renovation project to assure success from start to end, based on our expertise. Why? Here are some examples of how a kitchen design process may benefit you, based on our experience:

COMPLIMENTARY CONSULTATION

The first stage in the design process at Renovahouse Kitchens is to organise an in-home meeting with a new potential customer. At a time that is convenient for you, one of our friendly Consultants will visit your home and begin the design process. They'll talk about your needs, design ideas, and materials, and then collaborate with you to come up with unique solutions for your area. We spend time getting to know you, your house, and how you utilise your kitchen during this appointment. We'll talk about what you like and don't like about the present space, what you want and need, and what sort of aesthetic you want to accomplish in the new area. We'll also take photographs and take measurements of the current kitchen at this time. Appointments can be made over the phone, by email, or in person. Some clients prefer to see us in the showroom first before coming in for an in-home consultation.

DESIGN REVIEW

Our staff will provide early estimates while they work with you to develop your dream design, ensuring that we stay inside your budget. These quotations are provided to you free of charge and without commitment by Renovahouse kitchen remodel. Kitchens and other joinery are on display in our showrooms, as well as a selection of samples to assist you fine-tune your design. Our designers will meet with you to go over the various possibilities and finalise your project.

To build accurate models of your future kitchen, we use 2020 Design software. We'll even be able to make rapid adjustments during this meeting to show you alternative design possibilities. The showroom at Renovahouse features a broad range of designs, finishes, and door styles. To demonstrate our clients the potential we have to construct the kitchen of their dreams, we exhibit 7 full kitchens.

REFINING THE DESIGN

We'll send you a complete set of designs when we receive the initial retainer for your job. We also accept sample door orders if you have a certain finish or door type in mind. Our designers provide comprehensive construction drawings (plans and elevations) as well as 3D renderings of your new kitchen. This gives you the chance to make minor adjustments and approve your construction drawings before our manufacturing staff begins working on your project.

Many of our customers want to take the designs home and compare them to their current kitchen to ensure that all of their wishes and needs are met. We often exchange emails with queries and more drawings of design choices throughout this period. On occasion, our designers may meet in the showroom to discuss various design ideas and adjustments. We've found local craftsmen to supply and install your kitchen, and we'll collect estimates on your behalf so you receive the finest quality and service possible. Transparency is important to us. Our design service gives you your own set of plans so you can do your research on cost, quality, and customer service. This process is unique to each individual and may take longer for others. It depends on the size of your kitchen, the length of time you have to complete the job, and how quickly you make selections. The team at Renovahouse values this time greatly because we want you to be 100 percent pleased with the final product.

CONTRACT

After the design has been finalised, the contract paperwork must be completed. To continue ahead, all final decisions on cabinetry finish, door design, appliances, and so forth are required at this time. We go through any last-minute design elements, the project timetable, and any concerns you have about your scenario. The cabinet order is issued once the contracts are completed, and you're on your way to a beautiful new kitchen! We also collaborate with the homeowner's contractor to ensure that everything runs properly. We offer a complete set of drawings and a cabinet spec sheet with all relevant information to the contractor and/or installer, and we are always ready to answer any queries.

A modern kitchen featuring a curved island with a white countertop and a white, vertically-ribbed base. The island is positioned in front of a dark wood kitchen wall with a white subway tile backsplash. A stainless steel sink and a curved faucet are visible on the island. Two white, spherical pendant lights hang from the ceiling. Large windows with white curtains are in the background, letting in natural light.

Renovahouse kitchen renovation is the homeowner's primary point of contact for all cabinetry scheduling and delivery. We always make it a point to be present when the cabinetry is delivered so that we may inspect it. We'll also supply another set of installation drawings to keep on site at this time. If Renovahouse is installing the cabinets, we work closely with our skilled installers to ensure everything goes well. We keep a running punch list of items that need to be handled during the installation process. The smooth and effective running of the project is our top concern.

We've built a solid reputation in the community as a dependable source for design, contracting, and cabinetry over the last 20 years. We have strong relationships with the cabinet businesses we represent, so we should be your first call if any future concerns develop. Your Project Manager will then manage everything from start to finish, ensuring that your kitchen remodel is as stress-free as possible.

HAMPTON KITCHEN:

A Hamptons kitchen should be a comfortable space for gathering, entertaining, cooking, and resting. The Hamptons interior design style emphasises refined elegance as well as a sense of comfort, functionality, and liveability. Because the kitchen is typically the focal point of a home, it's understandable that you'd want it to incorporate all of these features.

ADD A MODERN TOUCH TO YOUR HAMPTON KITCHEN WITH EXCEPTIONAL RENOVATIONS

Renovahouse Remodeling is a brand you can trust when it comes to kitchen renovation in Hampton. Give your kitchen a creative flair and a modern touch to make it more appealing. When it comes to kitchen remodelling in your Hampton home, you don't have to go any farther than Renovahouse.

Nothing will go wrong when we work on your kitchen with appropriate planning and design. We've been providing exceptional value, choice, and service to our consumers for over 20 years. Our beautiful Hampton kitchen makeover service has a reputation for quality, functionality, and refinement. Kitchen remodelling Hampton, according to Renovahouse , should be a straightforward and stress-free procedure from start to finish.

HAMPTONS KITCHEN RENOVATION DESIGN

Pitch ceilings, exposed beams, wooden sarking on walls and ceilings, wood flooring, pastel colours, and plenty of light characterise the classic Hampton kitchen makeover design. When considering a Hampton kitchen remodel, keep this in mind, since it will look best in a home that already has some of these elements. Renovations to our kitchen Hampton designs are attractive, functional, and contemporary. They combine practical designs with cutting-edge technology and high-quality fixtures. A Hampton kitchen remodel by Renovahouse incorporates the most up-to-date equipment, cabinets, islands, and backsplash ideas.

Our Hampton kitchen remodel ideas, from matching appliances to hidden cabinetry, are meant to reflect your personality and way of life. Remodeling your Hampton kitchen may be costly, and if you don't pick the proper expert, you may end up paying more than necessary.

When you design your kitchen with Renovahouse, we will work with you to ensure that the cost of remodelling is well within your budget. You'll know all of the prices ahead of time, so you won't have to worry about any surprise expenditures once the project is completed. We'll design a kitchen that's not just modern, but also useful and efficient, because our focus is on you and your needs. While working on your kitchen, you can depend on us to meet and surpass your expectations. We'll walk you through every stage of the kitchen remodelling process so you don't get lost.

Please feel free to contact us with any questions you may have about the remodelling project, including the cost and timeline. Our Hampton kitchen makeover designs are basic but polished, budget-friendly yet luxuriously elegant. There are several looks, materials, colours, and styles from which to pick. Our expert kitchen renovation Hampton designers are ready to help you and guide you throughout the process.

We help you with all stages of kitchen renovation Hampton including:

- Bench-tops
- Cupboards
- Splashbacks
- Appliances gas and electrical
- Sinks and taps
- Deck, tiling and painting
- Lighting

Contact us now to learn more about how our Hampton kitchen renovation service can assist you in creating the kitchen of your dreams. You can feel confident that your kitchen remodel Hampton project will be finished on time and on budget once we have supplied you with an obligation-free quotation.

GET CUSTOM CABINETRY BUILT TO PERFECTION FOR YOUR HAMPTON STYLE KITCHEN

Traditionally, kitchen cabinets were built with a frame around the panel, which were known as shaker-style cabinets. Because of their strong, classic forms and craftsmanship, these cabinets are popular in Hamptons kitchens. Cabinets will make up the majority of your kitchen, both to meet your storage demands and to make the space feel more spacious. Because we have our own cabinet factory, you may get cabinetry that is custom designed to match your kitchen's design and fit your needs.

When you pick us for the project, you'll get the best cabinets for your kitchen. We don't cut corners when it comes to cabinet production, so you can count on high-quality cabinets constructed from the best materials and created by our skilled cabinetmakers. We've been making and supplying kitchen cabinets to Sydney homeowners for over 20 years.

GET IN TOUCH WITH RENOVAHOUSE TO LEARN ABOUT OUR HAMPTON LUXURY KITCHEN DESIGN SERVICE

Contact the Renovahouse team now if you're eager to learn more about new kitchen designs for your home or if you have any questions about our Luxury Kitchen Design Service. Our staff can build a customized kitchen design that is suited to your needs, whether you want a new contemporary kitchen or a Hamptons style kitchen. We cover everything from new construction to high-end kitchen renovations in Sydney.

Modern look

Your Kitchen Is the Most Significant Room in Your House – Give it the Attention it deserves with a modern Custom Kitchen Remodel

You deserve a contemporary kitchen that meets your demands, whether you're a busy mom making fast meals for a growing family or a gourmet chef who enjoys throwing dinner parties for visitors. Since our inception in 2000, Renovahouse has been renovating kitchens for homes all around Sydney.

If your kitchen is showing its age, we can do a total floor-to-ceiling makeover to give you the cooking area you've always wanted, or we can make quick and easy changes to give your kitchen a new lease of life without a full modern rebuild. We can see why a contemporary kitchen has grown so popular in recent years. It has a sleek, sophisticated, and sexy appearance with clean lines that many homeowners find appealing. To bring it into the modern day, a modern kitchen is meant to reduce clutter to a minimum and rely on reflecting surfaces and high-tech materials. Exotic woods or highly polished woods can be utilised in some situations to add that extra touch of luxury.

MODERN KITCHEN RENOVATION

Modern kitchen remodelling is frequently referred to as any style that is less conventional and more contemporary, yet all modern design has distinct roots in terms of time period, style, and influences. Many modern kitchen designs have included midcentury modern kitchen design, which is generally recognised as having originated in the Nordic nations in the mid-20th century. When you work with us to convert your kitchen into a modern design kitchen, our interior designers will work directly with you to ensure that the new area fulfils all of your family's practical demands while also giving your home a fresh new aesthetic.

In a computerised 3D model, you'll be able to see how your new modern design kitchen will appear and make aesthetic adjustments to suit your preferences. In fact, you have complete control over the appliances, lighting, cabinets, countertops, flooring, fixtures, colours, and accessories that go into your new contemporary kitchen, and our designers are always ready to provide advice and recommendations.

MODERN KITCHEN APPLIANCES

The most desired kitchen amenity is appliances. They provide both elegance and functionality to your kitchen. Stainless steel appliances are still a popular choice for modern kitchens on the Gold Coast, and you may customise your kitchen to match your appliances.

Smart appliances are becoming more widely available, and technology is altering how we use our kitchen equipment. We'd be delighted to help you improve your kitchen with more modern-looking equipment if that's something you're interested in. We've renovated a number of kitchens in and around Sydney, and we specialise in high-quality renovations that increase the value of your house.

MODERN KITCHEN DESIGN

Traditional kitchen styles favour natural materials for cabinets, worktops, flooring, and furnishings; however, modern kitchen designs typically stray from this aesthetic, favouring man-made materials such as laminate, ceramics, and moulded plastics. That's not to argue that man-made materials can't, shouldn't, or shouldn't be used in modern kitchens; they nearly always do, and to great effect. Modern kitchens frequently feature granite worktops, smooth hardwood flooring, and finely crafted wooden furniture with the distinctive curves and angles of modern design.

When it comes to kitchen renovations in Sydney, choose the right contractor to do the job is critical. We are extremely enthusiastic about our work at Renovahouse remodelling services, and we place a lot of emphasis on our workmanship, quality, and attention to detail, as well as using the most latest technologies. This guarantees that the consumer is always totally happy with the final result.

QUICK AND EASY RENOVATIONS FOR MODERN LOOK

If you want to make minor modifications to your kitchen rather than a complete redesign, Renovahouse Remodeling can help with a variety of services, including:

- **Cabinet refacing** – We'll replace the outside of your present cabinets with your choice of material, style, and hardware, leaving the framework intact.
- **Countertop replacement** – We can replace your damaged and cracked worktops with modern materials like granite and silestone, which will last for many years.
- **Backsplash installations** – Adding a tile backsplash to your kitchen is a fantastic way to add colour and individuality.

These fast services are less expensive and take less time to complete than a full redesign, making them ideal for budget-conscious households.

QUALITY, BRANDS AND MATERIALS

A high-quality kitchen transforms a house into a home. Intentional kitchen design is the cornerstone of every house, from cabinetry and countertops to flooring. As a renovator, it's critical that you can provide your consumers with high-quality brands that you know and trust.

Renovahouse provides a comprehensive selection of high-quality goods and supplies to get the job done correctly the first time, whether you're remodelling your kitchen or starting from scratch.

We always utilise the highest quality materials and keep a close watch on everything we do. Our skilled designers collaborate with you and your clients to plan, measure, and order the components for the ideal kitchen. What's the end result? Clients who want to transform their house into a kitchen showcase.

Our goal is to make you look beautiful while also improving the appearance of your kitchen renovation. That's why we provide the best brands at the best rates, with unbeatable service.

We provide rates that are within your budget, as well as durability and designs that are appropriate for your lifestyle. Renovahouse will give you with the greatest experience from start to end, with the best goods on the market, bespoke design services, licenced and insured installation, and a customer service focus. We can assist you in selecting a kitchen of higher quality and material, as well as a lower price and better service.

Whether you need a full-service makeover or simply some assistance on a DIY project, our focus is on providing exceptional customer service. Our staff has received specialised training in home design and remodelling projects, allowing us to give you with the best custom designs possible. We provide industry-leading brands as well as custom-fabricated solutions built from the highest-quality materials.

We think that our success is due to our attention to detail. The interiors of our kitchens are built entirely of natural materials. Our kitchen cabinets are one-of-a-kind and made of high-quality materials. They have the highest level of stability and resilience as a result of this. Renovahouse will endure a lifetime because of its high-quality materials, superb design, and cutting-edge technologies.

We only work with the top brands in the business, from mid-priced to high-end cabinetry, to ensure that you get the perfect cabinet design, colour, and size for your kitchen. Our design staff will assist you in selecting cabinets and countertop selections from our extensive collection, allowing you to construct the kitchen of your dreams!

French style provincial CREATE STUNNING FRENCH PROVINCIAL KITCHENS IN SYDNEY

Do you want to design a kitchen with classic French design elements? Do you want to spruce up your Edwardian, Victorian, or Georgian home? We are enthusiastic about constructing exquisite kitchens that emanate an outstanding appeal as a one-stop store. We're specialists in designing kitchens with classic design features that last a lifetime. Our French kitchens in Sydney are inspired by the picturesque French country house, and they add value to your property while providing the ideal area for you to party and hang out with family and friends. We have some fantastic design ideas for you if you want to include basic French provincial kitchen design features. Let's talk about your modern dream kitchen design, and we'll gladly collaborate with you to make it a reality.

ENRICH YOUR KITCHEN DECOR WITH UNIQUE DESIGN ELEMENTS

We create inspiring spaces at Renovahouse and will work with you to bring the timeless beauty of France into your home. The distinctive French style kitchen has an appearance that is influenced by the French regions in terms of design components. The kitchen in this style is elegant and modest, with delicate colours and complex design features. Our kitchens are a great combination of style, utility, and practicality, and they reflect the historic flair of France. There are wonderful design choices that you may explore with that are created to look beautiful for years to come.

Expertise and meticulous attention to detail are required when incorporating French provincial kitchen design features into a home. We have the expertise to capture the spirit of this one-of-a-kind design and beautifully decorate your kitchen space. We can design the kitchen of your dreams, according to your house, lifestyle, and tastes.

BESPOKE CLASSICAL KITCHEN DESIGNS IN SYDNEY

We recognise that every house is different, as are your tastes. We take a comprehensive approach to every project, and because to our client-centric strategy, we've been able to create some of the finest kitchens for customers not just in Sydney but around Australia. We will develop a custom layout for you based on the space available and your lifestyle requirements. We'll be delighted to walk you through the design options, regardless of the style you're going for or the finish you want to attain. We'll make sure that every detail of your kitchen is painstakingly designed for an exceptional result, from subdued earthy tones to the usage of natural type materials.

COMPLEMENT THE LOOK OF YOUR HOME WITH FRENCH KITCHENS IN SYDNEY

We take pleasure in providing excellent customer service and beautiful kitchen design ideas to our clients. We will be delighted to work with you whether you are building a new home or just want to update the style of your current kitchen. We will make certain that the style complements the rest of your house and provides you with an area that you will like.

Beautifully constructed wooden cabinetry, stone bench tops, ceramic tiling, large ovens and range hoods, and wood or stone floors are examples of classic materials. Decorative brass taps, faucets, hooks, and rails, whether antique or imitation, contribute to the impression of authenticity. Corbels, turned posts, capping, moulding, and mantels atop free-standing cookers flanked by fluted columns are als-

o options for cabinets with glass or profiled doors, as well as corbels, turned posts, capping, moulding, and mantels. Our kitchen designers can help you figure out what would look best in your space. For the best French kitchen design, go with Renovahouse.

RENOVATE YOUR KITCHEN WITH A SPECIFIC FRENCH PROVINCIAL STYLE

Choose the appearance you want for your kitchen and we'll make it a reality, whether it's based on a few photos you discovered online or ideas from publications. If you don't want to go with a modern appearance, have a peek at these current kitchen trends.

1. Modern Kitchen
2. Cottage Charm Kitchen
3. Mediterranean Kitchen
4. Coastal-Inspired Kitchens
5. Old World Kitchen
6. Traditional Kitchen

WE RENOVATE MORE THAN JUST KITCHENS

While kitchens are our speciality, we also take pleasure in offering a high-quality renovation service for other areas of the house. We can help you design and develop something that matches your unique style and flair, no matter what it is. From classic to contemporary, French to modern, there's something for everyone. Our design experts will create a kitchen that is specifically tailored to your requirements.

Classic style kitchens

In many nations, the timeless appeal of a traditional kitchen design is difficult to emphasise. This kitchen design is the pinnacle of calm refinement and elegance. The mix of functionality and simplicity assures long-term appeal. Do you want to give your home a more traditional appearance and feel by installing a classic kitchen?

We specialise in developing inspirational kitchen areas with exquisite design elements as an interior designer and cabinet builder (one-stop shop). Every part of our kitchen design is intended to make your house a home, and it exudes timeless charm. Our Sydney designers and engineers will enhance the beauty and value of your house with magnificent classic elements and an excellent touch of minimalism. We have some fantastic kitchen design ideas for you if you want to break away from the recent kitchen trends.

We will work closely with you to make your idea a reality, whether your home is Edwardian, Victorian, Georgian, contemporary, or modern. We will work with you from start to finish, whether you want a contemporary, rural, or European twist on classic kitchen design features, or something else entirely. Our kitchen designs are practical, welcoming, and exuding classic flair, and they make a stunning addition to your home, allowing you to express your individual style in a variety of ways.

We begin by analyzing the layout to ensure that you can make the most of the space available. We'll walk you through the design options based on your lifestyle, interests, and aesthetic vision. The options we offer for you will astound you, and we guarantee that your completed kitchen will be beautifully created.

WHAT ARE THE HALLMARKS OF A CLASSIC KITCHEN?

An open floor plan, stone benchtops, kitchen islands, and plenty of natural light are all typical features, all of which contribute to a welcoming, homey atmosphere.

The cabinetry has basic profile doors and a neutral tone throughout, so you don't have to worry about your kitchen looking dated in a few years. Individual features are subdued - there are no ornate flowery corbels to be seen in one of our basic kitchens.

At the same time, the kitchen has plenty of room to adapt to your changing tastes. Glass doors on wall cabinets, for example, might be used to display your prized possessions.

HOW TO CHOOSE A CLASSIC STYLE

When it comes to a traditional kitchen, what should you consider?

Classic styles are neither modern nor traditional, and they never go out of style. As a result, try to be aware of – and avoid – characteristics that are popular or fad-like. Look for cabinetry that has been polished and has basic, clear lines. Consider using marble or stone for the benchtops and wood or stone for the flooring. Each of these components has one thing in common: they are always in vogue.

NEUTRAL COLOURS:

White is a classic kitchen colour that may be used in a variety of ways. It's bright and airy, and it can make tiny areas appear larger. Of course, neutral and light colour palettes can work just as well.

Consider using black and white components to create contrast. What could be more elegant than a white kitchen with a black marble bench top and other accents?

These are all desirable characteristics in a kitchen design that is meant to last. If you want to incorporate more trendy flourishes, do it in less permanent fixtures like lights and appliances.

BLANK CANVAS:

This is a design that gives you the “good bones” to stamp your own personality and flair on. It's a blank canvas that allows you to create a kitchen that you'll love for years to come. Walking through the full-size exhibits in our showrooms is the greatest way to get a sense of how a traditional kitchen feels.

Luxury Kitchen Renovation

For both home owners and buyers, the kitchen is one of the most significant rooms in the house. Potential consumers pay close attention to high-end kitchen features and seek for premium kitchen designs. Buyers want a lavish kitchen to have cutting-edge equipment, fittings, and fixtures that are exceptionally well constructed, as well as a high degree of design and sophistication that serves as the home's main point.

Structure modifications are part of a luxury kitchen remodel. The kitchen has been completely or substantially rebuilt, with high-end materials, finishes, fixtures, flooring, and other features. This is the most extensive of the four remodelling projects. This sort of renovation is frequently seen on design shows on television... During the big reveal, they nearly always show you a luxurious kitchen!

People wanting to improve the aesthetic and usefulness of their current kitchen will be looking for luxury kitchen design ideas to help them plan their own remodel. We can design a luxury kitchen that blends in with the rest of your house, adds beauty, and, of course, adds value, whether your property is classic or modern.

Designing a luxury kitchen is a meticulous procedure including several factors. It's important that the process of choosing kitchen design elements be enjoyable and inspiring. As a result, while selecting all of your luxury fixtures, appliances, finishes, and cabinets, we are fully aware that you should take your time to envision the space and how you and your family would use it on a daily basis.

Our luxury kitchen remodelling business can guide you through the process and help you choose the ideal plan for your area. We generate a highly comprehensive floor plan as well as a picture realistic render so you can see your kitchen design before the construction begins.

Consider the professionals at Renovahouse if you're ready to begin your kitchen renovation project.

We are highly skilled luxury kitchen designers and manufacturers at Renovahouse, and we have an unrivalled reputation in Sydney. To give our customers with the most luxury kitchen designs, our custom-made kitchens and joinery are built with the greatest workmanship and paired with industry-leading equipment.

SPECIALISTS IN LUXURY KITCHENS IN SYDNEY

Renovahouse Kitchens Renovations specialises in creating modern and ultra-modern luxury kitchen designs in Sydney, whether for a new construction or restoration of an existing luxury kitchen. We can work with any kitchen design plan or idea to create your luxury dream kitchen, including custom cabinetry, appliance customization, and fixture customization to match your needs.

High-end kitchens that combine maximum utility, exceptional convenience, and excellent visual appeal are known as luxury kitchens. Renovahouse Kitchens can create the ultimate luxury kitchen of your dreams at an affordable price point, whether you're building a new luxury kitchen or renovating an existing high-end kitchen.

MODERN LUXURY KITCHEN DESIGN

We have an experienced team of highly trained experts at Renovahouse Kitchens who design and build modern luxury kitchens. A luxury kitchen combines better quality materials with an upscale design for practicality, convenience, and visual appeal. It has high-end surfaces, high-end kitchen appliances, excellent lighting, and cutting-edge technology. Most of the following features will be included in a modern luxury kitchen design from scratch or renovation:

1. **Seamless Architectural Detailing:** Architectural details will flow effortlessly into other sections of your home, especially if you have an open floor plan.
2. **Cleverly Designed Spaces:** Interior design comprises maximising and enhancing functionality, plan flow, storage, and entertaining space.
3. **Larger Windows:** We'll construct and incorporate wider windows to bring the outside inside if the kitchen layout allows and it's feasible.
4. **High-End Materials & Finishes:** All of the features in the kitchen, including the benchtop, backsplash, cabinets, and cupboards, as well as the feature wall, are made of superior materials and finishes.

5. Advanced Kitchen Appliances: Kitchen equipment that are both energy efficient and attractive.
6. Integrating Energy Efficiency: Insulation, water-saving taps, ecologically friendly water heating, and natural and electric lighting are all included.
7. Premium Lighting: A light-filled kitchen appears brighter and more spacious, and it enhances the beauty of the kitchen's decor.

We design and build new or remodel modern luxury black and white kitchens that are beautiful and fashionable.

WHY SHOULD YOU CHOOSE US FOR DESIGNING YOUR LUXURY KITCHEN IN SYDNEY?

Our modern and ultra-modern luxury kitchens are simple to maintain and built to last. Renovahouse Kitchens has a wealth of expertise in designing and building new luxury kitchens as well as renovating existing luxury kitchens in Sydney

WHAT MAKES RENOVAHOUSE KITCHENS UNIQUE?

We at Renovahouse can provide personal attention and care to our clients from start to end because of our family business style. Over the years, we've built a strong name for ourselves by providing friendly service, specialised workmanship, and cost-effective rates.

Only the most reputable Australian manufacturers and distributors, such as Ceaserstone, Quantum Quartz, Dekton, Blum and Hafele are used for quality hardware and finishing materials.

Our custom cabinets and luxury kitchens come with a 10-year craftsmanship warranty and a lifetime warranty on parts like drawers and hinges. What sets us apart from the competition is our devotion to outstanding workmanship and attention to detail, as well as the fact that we only utilise premium quality materials.

Why Invest in Remodeling Your Kitchen?

In most homes, the kitchen is the most frequently used area. In Sydney, the average homeowner spends over three hours each day in the kitchen, or approximately 19 hours per week. The kitchen serves as a multi-purpose space where you may prepare food, host guests, and share meals with your family. These activities are best carried out in a kitchen that is both efficient and attractive.

With decades of expertise, renovahouse's skilled kitchen remodelers know how to breathe new life into this central room while still offering ample storage and work space. Our designers may work with an existing layout or start from scratch to create custom kitchen layouts that fit your area perfectly. View photos of our previous projects for inspiration on how we might transform your kitchen.
